Turn left on Prairieside Dr for 150 feet

Clubhouse of right side of drive

Morningstar Golfers Club

Laid out around a former quarry, Morningstar Golfers Club features dramatic elevation changes throughout the course. These elevation changes, some reaching more than 100 feet, are the key component of a layout with virtually no level lies.

Morningstar also features "target golf" in a subtle way, shots must be played to landing in areas flanked by strategically placed bunkers, mounds, depressions and "transition areas." Wild flowers and prairie grass plantings add to the natural setting, and water comes into play on six holes. Dominating the property from high above the course is Morningstar's clubhouse. The full-service facility caters to its guests with a fully stocked golf shop, pub and dining room.

Morningstar also has state-of-the-art practice facility that features a 15 acre practice range, 40,000 square feet of grass tee surface on three levels; target greens with bunkers, a short-game practice area with a bunker and chipping green and a 9,000 square foot putting green.
